

INSUREELM ASSURANCE – CLAIMS HANDLING POLICY

Document CLM-2026 · Internal · Version 3.1 · Effective 01 March 2026

1. SCOPE

This policy governs how retail health and travel claims are received, acknowledged, and resolved for all InsureElm policyholders in Pakistan.

2. COOLING-OFF PERIOD

A new policyholder may cancel a policy within 14 calendar days of the issue date for a full premium refund, provided no claim has been made. After day 14, cancellation follows the pro-rata schedule in Section 7.

3. CLAIM REFERENCE FORMAT

Every claim is assigned a reference in the form CLM-YYYY-NNNNNN, where YYYY is the year of submission and NNNNNN is a zero-padded serial. A claim without a reference in this format has not been formally logged.

4. SERVICE LEVELS

- First acknowledgement: within 2 business days of submission.
- Standard resolution: within 10 business days of acknowledgement.
- Complex resolution (Section 6 cases): within 25 business days.

The standard excess (deductible) applied to each health claim is PKR 5,000. Travel claims carry no excess.

5. EMERGENCY CLAIMS LINE

The emergency claims line operates 06:00-22:00 PKT, seven days a week. Outside these hours, submissions are queued and acknowledged the next business morning.

6. COMPLEX CASES

A claim is "complex" when it involves hospitalisation over PKR 200,000, a third-party liability, or a suspected non-disclosure. Complex cases are routed to the Claims Review Committee.

7. ESCALATION

A policyholder dissatisfied with a resolution may escalate to the Claims Escalation Lead, Priya Nandakumar, whose office must respond within 5 business days. A further appeal goes to the independent Insurance Ombudsman and is outside the scope of this document.
